

Vivitar Preset Wide Angle, Telephoto, and Zoom Lenses with Compatible "T" Mount System

The compatible "T" Mount system makes it possible to use Vivitar preset lenses on a variety of SLR cameras simply by changing adapters. The photographer who owns two or more SLR cameras with different lens mounts, or who wishes to change from one camera to another, has no need

to purchase a whole new assortment of lenses to maintain his versatility. If he is using the Vivitar "T" mount lens system, he simply purchases the adapter needed for his new camera and continues to use his present lens.

Vivitar Preset Lenses with Compatible "T" Mount System

50mm

28mm

35mm

28mm f2.5

35mm f3.5

SPECIFICATIONS

Optical Construction: 8 elements in 7 groups
Angle of Acceptance: 74°
Aperture Range: f2.5 to f22
Minimum Focusing Distance
 from Film Plane: 10 inches
Weight: 10½ ounces
Length at ∞: 2¾ inches
Maximum Barrel Diameter: 2½ inches
Accessory Size: 62mm

KEY FEATURES

- The most popular wide-angle focal length
- Unusual depth of field, close focusing and wide 74° coverage for use in cramped interiors or for panoramic landscapes
- Fast f2.5 for precise focusing and low light level shooting

Vivitar 28mm f2.5 "T" Mount

Stock No.
20-0998

SPECIFICATIONS

Optical Construction: 5 elements in 5 groups
Angle of Acceptance: 63°
Aperture Range: f3.5 to f22
Minimum Focusing Distance
 from Film Plane: 2½ feet
Weight: 6¼ ounces
Length at ∞: 2¼ inches
Maximum Barrel Diameter: 2⅛ inches
Accessory Size: 46mm

KEY FEATURES

- Preferred by many photographers as a "normal" lens
- Offers a wide field of view with believable perspectives
- Fast enough for all average light conditions

Vivitar 35mm f3.5 "T" Mount

Stock No.
20-1009

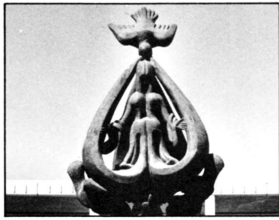

Vivitar Preset Lenses with Compatible "T" Mount System

50mm

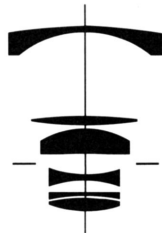

35mm

85mm

35mm f2.8

85mm f1.8

SPECIFICATIONS

Optical Construction: 6 elements in 5 groups
Angle of Acceptance: 63°
Aperture Range: f2.8 to f16
Minimum Focusing Distance
 from Film Plane: 2 1/2 feet
Weight: 7 3/4 ounces
Length at ∞: 2 1/4 inches
Maximum Barrel Diameter: 2 3/8 inches
Accessory Size: 52mm

KEY FEATURES

- Approximates the coverage of the human eye when fixed on one subject
- Offers a wide field of view, and great depth of field makes critical focusing unnecessary
- Fast f2.8 aperture for available light conditions

Vivitar 35mm f2.8 "T" Mount Stock No.
20-1032

SPECIFICATIONS

Optical Construction: 6 elements in 4 groups
Angle of Acceptance: 28°
Aperture Range: f1.8 to f16
Minimum Focusing Distance
 from Film Plane: 4 feet, 8 inches
Weight: 17 ounces
Length at ∞: 3 1/2 inches
Maximum Barrel Diameter: 2 3/8 inches
Accessory Size: 55mm

KEY FEATURES

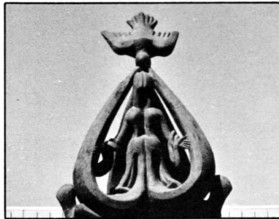

- One of the preferred focal lengths for portraits — provides correct facial proportions at distances which maintain contact and familiarity
- Unusually fast f1.8 for dim light level conditions
